About us

TexPakis a renowned knitwear manufacturer specializing in body-size tubular and open-width fabric, based in Lahore, Pakistan. TexPakis owned and managed by a Belgian family with more than four generations of textile experience. We strive for excellence from the selection of raw material to creating the finished product.

TexPak aims to be a cut above the rest by exceeding international norms and standards, by putting the environment first, and by establishing the best possible work environment for every single employee.

Vision

To become a leading global knitwear manufacturer distinguished by its experience, quality, innovation, fabrications, and customer orientations.

Mission

To drive excellence through innovation and sustainable growth.

Values

Flexibility

Our core business

Established in 2003, TexPak is a fast-growing knitwear manufacturer with a vertically-integrated supply chain and a sales-network in Europe and the United States.

We have niche capabilities in manufacturing and supply private label sweatshirts, hoodies, polo shirts and T-shirts. Our commitment and performance have earned us an enviable reputation as a trusted partner to famous brands including B&C, Russell, Sol's and additional global brands.

We currently employ 1900+ workers and we're affiliated with the Sapphire Group, creating a complete vertical setup from yarn to end product.

Efficient textiles

TexPak uses the domestic resources of Pakistan, a major cotton grower. We use our location to our advantage: not only does Pakistan have a huge amount of available water for producing textiles, we also benefit from factors like less road transport, less water consumption, less pesticide consumption and less waste water. All these advantages are then combined with our own expertise. Vertical integration of in-house yarn spinning enables efficient control over raw materials, resulting in efficient lead-times. We use Starfish software for precise fabric development. On top of that, we are able to assure cost effective production thanks to a computerized tracking system with quality control software developed by ourselves.

A financially strong partner

Four generations of passionate textile experts are at the heart of TexPak. Experience and knowledge passed on from father to son have made TexPak into the successful and financially reliable company it is today.

Every decision is part of a long-term vision. This means investing in the latest generation, high-end European and American equipment and creating advanced facilities. Being affiliated with the Sapphire Group, we have revenue of nearly \$1 billion annually, providing a solid foundation for collaboration with your company.

Our machines and capacity

Knitting

Well over 100 circular Knitting Machines from 'Vanguard', 'Mayer', 'Camber' & 'Terrot' with the complete range of diameters from 35-81cm (about 13.5" - 32")

In house available knitting constructions:

Single Jersey, Interlock, Pique, 3-End and 2-End Fleece, Ribs with and without Lycra

Fibre Blends:

100% Cotton, Polyester Cotton, CoolMax R, Dri-Release, Cotton/Modal, Fibre dyed Cotton/polycotton blends, Slub yarns, PVA/Hollow yarns, Organic Cotton (GOTS) and many more

- Capacity of 1.000.000 pieces per month

Printing

- ROQ Oval Screen Printing Machine (14 Colors+44 Pallets)

Quality

Quality starts from raw cotton to the end product. Tests are done at each production stage to assure the best quality. All parameters are recorded in a computerized tracking, efficiency and quality system. The in-house lab facility is equipped with latest equipment to test all parameters of the fabric.

Why choose Texpak?

TexPak assures great service, with

- a dedicated key account for every customer, who independently follows up the production process and is available 24/7
- a state of the art sample room offering quick delivery
- a huge fabric library with over 2,000 different fabric qualities
- a strong logistics department that can even offer you deliveries to your doorstep
- a team that is active in both Europe and the US, providing local support through every step of the ordering process
- ability to finance fully-factored garments and offering credit terms

On top of that, we can provide complete control and flexibility during the manufacturing process.

Accreditations and certificates

As the high quality knit division of the Sapphire Group, TexPak sets the bar high when it comes to quality garments.

We're able to supply sustainable raw materials (sustainable cotton, organic cotton, recycled and regenerated cotton/polyester...) and we're committed not to use any toxic substances in our garments.

Certificates revolving around fair working conditions.

Our social and ecological responsibilities

TexPak is a pioneer in Pakistan. With 87% of sewing factory employees being women, we are at the forefront of a cultural shift taking place in the country. All employees receive a living wage, and are given the first opportunity to grow and advance in our company. We strive to build long-term relationships with our workers, based on trust and reliability.

TexPak treats our planet with the same respect as we treat our workers. Environmental principles guide every new technology we develop. Social and environmental responsibilities are at the heart of what we do every day. It's a constant team effort but we insist on going the extra mile and setting the bar high for ourselves and our industry.

Meet Our Management Team

Mr. Luc DELCOUR

Mr. Luc Delcour is the CEO of TexPak, Private Limited. He earned his Industrial Textile Engineer degree in 1976. Luc is the third generation of the Delcour family in the textile business. He has been involved in all aspects of textile manufacturing, including serving as the director of a clothing company, starting his own sewing plant in Tunisia which he operated until 2003, then moved his investments to Pakistan.

TexPak, Private Limited was started by Luc in Lahore, Pakistan in 2003. Today, as CEO, with his vision he has expanded the number of workers from 150 to well over 1100.

Mr. Baudouin DELCOUR

Mr. Baudouin Delcour is the Director of TexPak, Private Limited. Baudouin is the fourth generation of his family to be in the textile industry. In 2004, he earned his Industrial Textile Electromechanical Engineer degree.

Baudouin built his textile experience starting as Key Account Manager with a clothing company in Tunisia. He then joined TexPak and lived in Lahore for three years learning the technical side of the business while gaining hands-on experience in management and manufacturing. As the Managing Director of TexPak, he manages the company by using his experience, and his versatile and creative skills.

In addition, Baudouin also jointly manages two other companies with his brother, Mr. Paul Delcour:

- SquareNuts – Mataro Advice BVBA, Brussels Belgium
- YourTex – Phlox BVBA Brussels Belgium

Mr. Paul DELCOUR

Mr. Paul Delcour is the Managing Partner of TexPak, Private Limited. Paul is the fourth generation of his family to be in the textile industry. He earned his Marketing Management degree in London. After a one-year internship in Pakistan at Sapphire Fibers, Limited, he acquired a variety of experience in textile management and manufacturing. Sapphire is one of the largest manufacturers and exporters of textile products in Pakistan. Paul also worked in management at several clothing companies in various departments. He became the Managing Partner of TexPak based on his experience in marketing strategy, business strategy, sales management & logistics.

In addition, Paul, along with his brother Baudouin Delcour, also jointly manages two other companies that Paul founded:

- SquareNuts – Mataro Advice BVBA, Brussels Belgium
- YourTex – Phlox BVBA Brussels Belgium
